

Job title: Business Development and Marketing Working Student / Werkstudierende/r (m/f/d)

About Marble Imaging

We will disrupt the European Earth Observation industry by developing our own satellite constellation and cutting-edge AI supported analytics. Marble Imaging is a German NewSpace company, combining engineering, aeronautics & Earth Observation to address global challenges from security, sustainability, climate adaptation and disaster resilience. We aim to provide these EO based analytics and insights by developing and operating our own constellation of very high-resolution multispectral satellites providing up to hourly revisits of areas of interest by the end of 2028. We are a fast-growing and diverse team, comprised of highly motivated professionals from various backgrounds. We share a common vision to make EO more accessible and understandable so that EO data can be incorporated into rapid-decision-making in every part of our global world.

About the Business Development and marketing team

As a working student you will be part of the BD and marketing team. We want to drive forward the commercialization of Earth Observation and become a key player in the field of Earth Observation data and analytics in Europe. The marketing team stands out for its ability to understand and communicate technical EO aspects clearly, and for actively spreading Marble's vision all around the world.

Location – Our BD and marketing team offices are based in Bremen and Frankfurt am Main starting by Q2/2026. It would be preferred if you could be within a commutable distance from either of those locations (preferably Frankfurt/Rhein-Main-Area).

The role

Your role would include the following topics:

- Collaboration and support regarding business development for geospatial data products in the form of market research, customer engagement/feedback, assistance with preparing proposals, and contributing to ongoing projects
- Collaboration on press releases and maintenance of press contacts
- Maintenance of social media platforms (mainly LinkedIn) and the Marble Imaging website
- Collaboration on event planning for trade fairs and conferences
- Preparing media and PR (text, graphics, videos)

About You

Required:

- Enrolled (and advanced) in Geospatial Science (Geodäsie/Geoinformatik)/Marketing/Communication/(Data)Journalism or similar studies and still enrolled at a university (Hochschule) for at least one more year
- Strong interest in satellites and Earth Observation products

- Outgoing, confident, independent, and flexible working style with a strong interest in learning a lot in a fast growing startup
- Experienced in presenting complex issues to non-scientific audiences
- Comfortable in researching, fact checking, texting as well as in the production of images, graphics, videos and working with the corresponding (design) tools
- Good German and English language skills
- Possibility to work physically on location at least 40-60% of the time

What We Offer You Here at Marble Imaging

1. You will be part of a NewSpace company that is revolutionizing the world of EO with its own fleet of European satellites.
2. You will have a chance to work in a fast-growing, multi-disciplinary, and diverse team with a strong desire to change the world.
3. The possibility of a full-time position after completion of the working student contract can be discussed.

At Marble Imaging, we are committed to fostering an inclusive and welcoming workplace. We believe that diverse voices bring diverse perspectives that fuel innovation, creativity, and the ability to tackle global challenges effectively. We encourage individuals of all races, ethnicities, genders, sexual orientations, abilities, and backgrounds to join us in our mission to change the EO world. We are an equal-opportunity employer.

Join us on our mission to explore and reimagine the possibilities of VHR EO based analytics and help us tackle global challenges. If space is the final frontier, you will be getting one step closer to reaching it with Marble Imaging. Contact us for questions and information at contact@marble-imaging.de
